AREAS OF EXPERTISE

- ES2019 JavaScript and TypeScript
- React, Redux, VueJS and Vuex
- NodeJS, Express, Firebase, REST and Graphql
- HTML, CSS/SCSS and StorybookJS
- Working knowledge of Jest and Testing–Library
- Working knowledge of Python and Django

WORK EXPERIENCE

FRONTEND WEB DEVELOPER

Bluelink Data Systems | June 2019 – December 2020
- Assisted in the building and continued maintenance for the Bluelink Marketing Site, the Bluelink components library and the People's Power Grab website.
- Used StorybookJS, TypeScript and SCSS to help build our component library.
- Built the UIs for multiple data pipelines in the flagship product, Lightrail, using SCSS, React, Redux and TypeScript.
- Extended the functionality of our Messaging application to allow for new user roles and approval flows using Firebase, React, Redux and our NodeJS backends.
- Used Jest and react–testing–library to set up a testing framework in our Messaging app.
- Provided mentorship to our frontend contractor.

OTHER SKILLS

- The ability to relay complex technical requirements and challenges to non–technical product and support teams.
- Able to utilize design tools such Invision, Figma, Zeplin and Sketch to build a pixel perfect UIs.
- Experience working with a remote team spread across multiple timezones.

EDUCATION HISTORY

STATE UNIVERSITY OF NEW YORK AT ALBANY

Bachelor of Arts, 2013
- 3.2 GPA
- World History Major
- Philosophy and Communications Minor
